# GENERAL OTIS' POLICY

## MANUFACTURES NEWS FOR THE UNITED STATES.

A Feeling That He Is Making a Serious Mistake His Restriction of Newspaper Correspondence.

New York, June 30.—An evening paper publishes the following from its Washington correspondent: "The press censorship at Manila is attracting a good deal of attention not less at Washington than in other parts of the United States."

"General Otis is carrying things, in respect to newspaper correspondence, with a higher hand than any other official has ventured to in recent years. He does not content himself with forbidding the transmission of certain news by cable from Manila, but goes to the extreme length of saying what shall and shall not be mailed under envelope and seal. He has warned the correspondents also that if they do not try to circumvent his vigilance by sending objectionable matter over for transmission from Hong Kong, will be treated as if the offence was committed in Manila, and might as well pack his trunk for home."

"There is a feeling here, among those who know most of such things, that General Otis is making a serious mistake in his policy of news restriction. No general ever had with him a more intelligent group of correspondents, or one containing a better aggregate of personal character."

## CHINA PREPARING.

All Available Forces to Be Put on a War Footing—Japan Giving Up Captured Cruisers.

Vancouver, June 30.—China would have Europeans believe that she is spoiling for a fight, according to late advice. Special editors, under the seal of the Empress Dowager, have been issued to the viceroys and governors of Kwang, Kiang, and Min-che provinces to put all military forces under their jurisdiction on a war footing, owing to the menacing and threatening attitude of Germany and Italy in Chinese waters. The Chinese forces, however, ordered to be on the defensive, for the aggressors shall have struck the first blow when permission is given to high military officials to take what active steps they may, under the circumstances, see fit. Perfect freedom is given to the viceroys and governors of the provinces named to dispose of their forces as they deem best when hostilities begin. In spite of the repeated requests of the Tung-shi-yamen to the German legation to withdraw German troops now quartered at Jehol-shan Shantung, the latter refuse to do so, giving as a reason that they wish to remain there until the Tientsin-Chinking railway line shall have been built, in order to be at hand should opposition be shown by malcontents of the province to prevent the construction of the road. Another excuse is that the Germans will remain at Jehol-shan until the spheres of influence of the various powers in China shall have been settled.

Manila papers state that the Chinese in the provinces of Bulacan and Pampanga are having an extremely hard time of it at the hands of the Filipino banditti. It is estimated that over 200 Chinese have already been killed. The damage which is being done all over the province in the way of looting stores and so on, is chiefly done by mere brigands who are not attached to any regular force at all. The policing of the country is absolutely nil. It is evident that the Filipinos are not able to keep peace within their own lines.

## More Gold From Klondike.

Vancouver, B.C., June 30.—The Klondike came down from the north last Monday night. There was \$35,000 of Klondike gold in the purser's safe. About half of this was a shipment sent down by the Canadian Development company, while \$15,000 of the remainder was carried aboard in a sack by Frederick Smith, a well known Seattle mining man. He says that in order to complete the survey of some of the creeks and adjacent property, Bonanza and Eldorado creeks will be closed for some time, that is, of course, only for the location of claims. Mining business will go on there just the same as it has been doing but the action taken in closing the creeks was considered to be absolutely necessary.

## "SCAB" FIRES WILD.

Cleveland, June 30.—F. Colner, a union conductor on the Central avenue line, fired two shots into a crowd that held up his car at the Cleveland and Pittsburgh railroad tracks today. The bullets went wild. There was a panic among the passengers. The windows of the car were smashed, but no one was injured.

London, Ont., June 30.—The two-year old son of Wm. Mottishaw, 7 Queen's avenue, was crushed under the wheels of a C.P.R. truck this afternoon. He was playing in front of the house and attempted to climb the truck but slipped under the wheels.

## TELEGRAPHIC BRIEFS.

Friday, June 30.  
Brought to visiting New York state lawmakers are visiting Mrs. Briggs at Harvard university celebrated its 200th year.

In the straits of Lule Isle is both, being steamships.  
The reported sale of the Sultan's mine is again announced.  
Robert Jerome was selected as Liberal candidate for Charlton.  
A large party of Japanese immigrants arrived at Vancouver.

John B. Smith, the ex-P.R. Freeman, injured in World War, is dead.  
Col. Ryan had a will with him in a canoe through Union river in to Lewiston.  
The tin plate mills of the U.S. may close down owing to excessive strikes.  
The body of Alex. Taylor, a Winnipeg stationer, was found in the Red river.  
The steamer Margaret offed west down Lake Erie and nine lives were lost.

U.S. officials are afraid Canada may obtain trade concessions with the West Indies.

Members of the Liberal government were waited upon by an anti-Pacific cable collection.  
The dance wheat of Manitoba's 1898 crop was successfully tested at Fort William elevators.

Gen. Otis has ordered mail new papers in the Philippines and sent the out-landish of Alaska.

The Great Lakes Towing company has been organized in Cleveland with a capital of \$200,000.

D. L. Stoddard, former of the N.Y. Bureau, Man. district, died under exceptional circumstances.

The Toronto city council management will increase its rolling stock by an expenditure of \$200,000.

Bullies are created by the department to allow them to risk for stupor in Lake Winnipeg's northern waters.

Frederick and his son, who were in Ottawa, the school, and returned from the school, will probably not be effected this year.

## RIOTING IN BRUSSELS.

Mounted Gendarmes Charge the Mob, Which Offered Resistance.

Brussels, July 1.—At a late hour the demonstrators assembled in the neighborhood of parliament house, the government offices and the palace, all of which were protected by the police. The efforts of the latter and of the civic guard to disperse the people were fruitless. Finally a body of mounted gendarmes repeatedly charged the crowd, greatly incensing the demonstrators who hurled stones and other missiles at the gendarmes, who thereupon discharged their revolvers. This also failed to scatter the crowd and the gendarmes charged with fixed bayonets and drawn swords. Two gendarmes and several rioters were wounded. Many arrests were made. Numerous windows and street lamps were smashed, and the scuffling continued until after midnight. At a late hour the demonstrators dispersed. At the hour of filling this dispatch the streets are still filled by the police and detachments of gendarmes are arriving from the provinces.

## Why the Reserve Has Fallen Off.

London July 1.—Sir Michael Hicks Beach, chancellor of the exchequer, responding to a personal toast at the banquet of the bankers and merchants of London at the Mansion house last evening and referring to the diminution of the gold reserve of the Bank of England, said that the great increase of the world's gold stock, which some persons seem to entertain alarm because although London is the great market for the world's gold this vast increased product seems to have passed us by and to have taken permanent abode in the United States and Russia. In 1891 Mr. Goschen, then chancellor of the exchequer, in that matter, but the relation between the Bank of England and the money market has been greatly changed by the rise of the great private joint stock banks. To arrange this reserve so as to meet the requirements of foreign countries, the banks that have deposited with the Bank of England will be the great object of my office, though the matter need not cause any alarm.

## Five Hundred Convicts Striked.

San Marcos, July 1.—Five hundred convicts in Arizona penitentiary refused work, claiming that their rations were insufficient in quantity and of inferior quality. The trouble began in the quarries, where about 100 men were employed. They refused to work when taken to the pits and the efforts of the guards were unavailing. When the men were brought back to the cells at night the news of the strike spread rapidly through the prison, and some of the convicts went when sent to their accustomed places. The board of control was notified of the condition of things in the prison by Varden Hunter, and they will go to Anamosa to investigate. The striking is done by the convicts themselves.

## Suspicious Death.

Killamere, Man., July 1.—D. L. Sisk, a farmer, living ten miles north of here, died suddenly last night. An inquest will be held. There is suspicion of foul play.

## HIDING THE WOUNDED.

Madrid, July 1.—At Saragossa the troops have been stationed at strategic points in the city. Many of the wounded have been hidden, so it is difficult to determine the number injured. A quest has been started at Seville and Valencia.

P.O. DRAWER 1887.

**GRAIN AND STOCK BROKER.**

Private wire connection with all markets. Grain bought and carried on margin. Correspondence Solicited.

## THE MARKETS.

Wheat prices have lost about two cents in the American markets and one cent for Manitoba wheat this week. There have been no important developments. Receipts at primary markets continue astonishingly large for this time of the year, and this, with free liquidation of long July wheat, had a depressing effect. The weather has been favorable for the winter wheat harvest which is now nearing completion. Experts are estimating the yield of the yield as cutting progress. The quality of the new grain is uniformly good. There has been some talk of less favorable conditions in spring wheat owing to excessive rains and very hot weather. The foreign crop is unchanged, very favorable from the continental and very unfavorable from South American Europe. The export demand is quite good and the general situation looks healthy.

J. D. O'BRIEN.

Winnipeg, June 30, 1899.

## WINNIPEG MARKETS.

Wheat—No. 1 hard, Fort William, 72c.

## THE PROGRESS,

Weekly paper devoted to local and general news. Published every Thursday morning by

ROSCOE E. LAW.

THURSDAY, JULY 6, 1899.

### THE PEOPLE FAVORABLE

The petitions in connection with the mill proposition were returned to the Council on Monday last when it was found that sufficient signatures had been obtained to justify the Council in drafting and submitting a by-law to the resident ratepayers of the municipality.

Those in favor of the proposition must bear in mind that their work is just begun when they sign the petition. Two-thirds of the votes cast are required to carry the by-law and it is absolutely essential that the agitation be maintained to the last minute. Every effort should be made to get out the vote in favor of the by-law lest the opposition, through the lassitude of those in favor, defeat the majority.

This matter is of deep concern to the farmers and we urge them to leave no stone unturned to carry it through.

The Municipal Ordinance provides that the day fixed for polling shall not be less than three nor more than four weeks after the first publication of the proposed by-law. That the Council shall before voting publish a copy of said by-law in some public newspaper published in the municipality for two consecutive weeks; and shall also post a copy of the by-law at four or more of the most public places in the municipality.

### HALF-BREED SERIP.

Half-breed serip is to be issued this fall throughout the North-west, entitling each receiver to 240 acres of land. Already people are buying up this prospective serip for a few dollars, paying down \$5 or \$10 and representing that there will be difficulty in the allotments of land. These would-be purchasers offer to secure the lands for a fee of \$20 or \$30 which leaves the serip holder \$10 or \$15, sometimes a little more, to show for the government's gift.

A protest was raised against this defrauding of the half-breeds at the last distribution, but it seems to have been forgotten. If possible the Dominion government should take measures to warn those to whom serip is given, or to prevent the half-breeds from parting with their possession for a song. The money is too often frittered away leaving them in an even worse condition than before.

### NOTES.

It would seem that A. L. Sifton has at last won the seat for Banff. Ever since the elections last fall there has been a squabble as to who was entitled to represent this constituency, Mr. Sifton or Dr. Brew. It is a strange net that allows so much dispute and litigation before a final settlement. As it was the question was settled only by Dr. Brew's manly act in resigning and standing for reelection. His many friends in the Assembly, on both sides of the House, will regret his defeat for he was respected and popular with all. Of Mr. Sifton we know little, but trust he will prove a worthy successor to the doctor.

Last year the tax rate on land was 12 mills per acre. This year the rate is 15 mills per acre. The rate on stock is 10 cents per head per year. The rate on a day's pasture is 10 cents. The rate on a cow is 12 cents. The rate on a horse is 15 cents. The rate on a pig is 10 cents. The rate on a sheep is 10 cents. The rate on a goat is 10 cents. The rate on a rabbit is 10 cents. The rate on a bird is 10 cents. The rate on a fish is 10 cents. The rate on a insect is 10 cents. The rate on a plant is 10 cents. The rate on a mineral is 10 cents. The rate on a building is 10 cents. The rate on a machine is 10 cents. The rate on a vehicle is 10 cents. The rate on a tool is 10 cents. The rate on a book is 10 cents. The rate on a paper is 10 cents. The rate on a writing is 10 cents. The rate on a drawing is 10 cents. The rate on a painting is 10 cents. The rate on a sculpture is 10 cents. The rate on a statue is 10 cents. The rate on a monument is 10 cents. The rate on a tombstone is 10 cents. The rate on a grave is 10 cents. The rate on a cemetery is 10 cents. The rate on a church is 10 cents. The rate on a school is 10 cents. The rate on a hospital is 10 cents. The rate on a prison is 10 cents. The rate on a court is 10 cents. The rate on a government is 10 cents. The rate on a nation is 10 cents. The rate on a world is 10 cents.

the dollar, a reduction of one-half mill on last year's rate. Owing to heavy rains causing bad roads and breaking of dams the Council have been compelled to levy the full statute labor tax of \$2.50 per quarter section. Though the rate was higher altogether by one-half mill last year less work and improvement was done, and in an average year the statute labor tax will be about \$1.50.

### Edgeley Echoes.

From another correspondent.]

Mr. Whitehouse, of Whitewood, is now visiting Messrs. Gore and Lindell of this place.

Mr. and Mrs. W. Currie, of the College, visited Edgeley last Sabbath.

Miss Gray, of Qu'Appelle Station, visited Mr. and Mrs. Holliday last Saturday and Sunday.

Our new pastor, Rev. Mr. Hoskins, preached his first sermon last Sabbath to a large and appreciative audience.

Some time ago the Edgeley Football Club received as a trophy from an admirer of the club, a very fine football. By some mischance or other, we are sorry to state that the said ball has been lost track of, which is much to be regretted, as it is needed now by the boys. Will any one having any knowledge of its whereabouts please notify the captain, Mr. D. Tate, or any member, who will be greatly obliged for the information.

Edgeley was well represented at the picnic held at Vernon Church on Dominion Day. Those present had a very enjoyable time, and say they will go again on a similar occasion. We hear some were surprised at the absence of the usual picnic sports, running, etc. The football was enjoyed, especially by the spectators, and our boys are to be congratulated on their success. The people of Vernon deserve to be congratulated on their enterprise in erecting such a handsome church, to assist which the picnic was held.

Be sure to attend the picnic to be held next Friday near the school house. Everybody will be on hand to make it a success.

School closed for the term on Friday last. A public examination was held, but for some reason or other, very few of the pupils and parents were in attendance.

Inspector Rothwell paid his official visit to the school last Thursday.

### McLean Station.

(From our special correspondent.)

The crops in this vicinity are looking splendid.

The McLeannites have decided to have a basket picnic on the afternoon of July 15th, also a good concert in the evening, for which great preparations are being made. Admission to concert 25 cents, children free. A good time is expected. "Come one, come all."

Mr. J. Plant is erecting a new frame house on his farm.

Like many happy bachelors, He cannot live alone.

So he thinks it wise to build a cage.

Before the bird has flown.

Miss R. C. McMichael has been the guest of her sister, Mrs. J. C. Starr, for the past week.

Mrs. J. B. Hawkes and Miss Bonrice are at present the guests of Mrs. Shaw, of this place.

Mr. and Mrs. Penneck, formerly of Smith's Falls, are at present the guests of Mr. R. Stott.

Mr. G. Stott returned from Balgonie on Monday last.

Mr. William Hardy accompanied by another good looking fellow, spent Sunday in the west.

The Shaw Bros., accompanied by Mr. J. Plant, spent a pleasant sojourn at Mount Prospect last week.

Mr. J. O'Brien is doing a rushing trade in the West, something like a peddler, but better in Balgonie.

A number of our McLeannites will be at the evening at Echoes next week, conducting Mr. Henry's orchestra.

### Spenterville Splashes.

(From our own correspondent.)

Lovely weather for the growing crops, which are looking unusually well, and the acreage is large.

Miss Wemyss left on Saturday to spend her vacation with her parents at Heaburn, Man.

Mr. Cates' many friends will be pleased to learn that he is improving after his long illness, and we hope soon to see him out again.

One evening last week a magnificent specimen of a Doukobar was noticed near here, but owing to our respect for the close season was allowed to escape.

At the election of officers for our Sunday School the following were appointed: Supt., Mr. Downing; Teachers, Mr. and Mrs. J. C. Starr; Sec-Treas., Miss B. C. McMichael; Time-keeper, Mr. G. Bailey.

The stonework of Mr. Geo. Spencer's barn is being rapidly pushed forward, and before harvest it is expected will be completed at a cost of one thousand dollars. In all probability others will next year follow the example of Mr. Spencer in this flourishing district.

An ice cream social was given by Mr. and Mrs. Starr at their residence on Friday evening, the occasion being the birthday anniversary of Mr. D. H. Starr. A very pleasant time was spent by all.

After half-a-dozen years of town life Mr. J. H. Plant has decided to again resume farming operations. He is now busily engaged building a commodious frame dwelling house.

The petition which has been circulated around here in reference to the mill has been adorned with the signatures of many of the rate payers. There is no doubt but that it would have been almost unanimously signed had Mr. Moore agreed to operate the mill for any specified period. Some reasonably object to it on this account, knowing that all Mr. Moore has so far agreed to do is to run the mill, and that by doing so, even for a single day, and afterwards keeping a stock of flour, etc., for the requirements of the people (as he is now doing at Dauphin, Man.), he would be fulfilling the conditions of his contract precisely. It is to be hoped that our representatives in council will attend to the matter in a business-like manner, and compel Mr. Moore to operate the mill for at least three months in each and every year, and the ratepayers will then be advancing their interests by voting in its favor.

### Brandon Fair.

This second greatest Fair in the west will take place on July 19, 20 and 21.

Special trains and reduced rates will be run from all parts. This will afford the farmers an excellent opportunity of visiting Brandon Experimental Farm and gaining information on the greatest industry of the west, agriculture.

An excellent programme of sporting events, bicycle races, gymnastics, fireworks and other attractions will make it without doubt the most attractive and important exhibition ever held in Brandon.

For prize lists, entry forms, and all particulars apply to F. J. Clark, Manager, Brandon.

The following is going the rounds of the press:—"Who has the right of way?—It is a well established principle of law that in crossing streets or highways the person on foot has the right of way. Drivers and bicycle riders should always bear this fact in mind. It is law, and if you injure pedestrians by careless riding or driving you are responsible for it. A person is not required by law to run across the street to keep out of the way of vehicles and bicycles. The drivers and riders are the ones to look out for wheel tracks." We fail to find that it is established principle of law that pedestrians have the right of way at road crossings. These drivers or riding must use great care at crossings, but pedestrians are also expected to use vigilance in keeping out of the way of vehicles. Had

pedestrians the right of way at crossings in our large cities vehicles would frequently be brought to a standstill at such crossings.

Wetting the tires now and then in summer time is good for them. It is said that an occasional sponging with water to which a little common soda has been added is an excellent thing to keep them soft and make them last.

Last week a delinquent subscriber said he would pay Saturday, if he lived. He's dead. Another, "I'll see you to-morrow." He's blind. Still another said, "I hope to pay you this week or go to the devil." He's gone.

Chicago Teacher—In what year did Columbus land?

Class—No answer.

Teacher—Come, can't any of you tell?

Bright Boy—I don't remember the year, mum, but it was before the fire!—New York Weekly.

AGENTS WANTED—For "The Life and Achievements of Admiral Dewey," the world's greatest naval hero. By Murray Halstead, the famous friend and admirer of the nation's hero. Suggested best book, over 500 pages, 8x10 inches, nearly 100 pages halftone illustrations. Only \$1.50. Enclosures demanded. Big commissions. Outfit free. Chance of a lifetime. The Dominion Company, 3rd Floor, Canton Building, Chicago.

## LOCAL NEWS

### Life Assurance.

Read the Provident Savings Life Assurance Society ad. in this issue.

Buy your Free Press from our Newsboy, Gordon McEwen, and thus get the news up to date. To be had at the station on arrival of train.

### School Flag up.

After an absence for about a year the school flag again waved in remembrance of confederation on Dominion Day, the trustees having had the flag pole replaced on Friday evening.

### Qu'Appelle Creamery.

The last issue of The Nor-West Farmer contains a picture of the Qu'Appelle creamery. The photo was taken by their own artist, Mr. Blakeley, who is accompanying Prof. Fletcher on his tour throughout the Territories.

### Hay Lands.

We are requested to mention that the Land Agent at Regina is giving permits to cut hay on government and C. P. R. lands on the following terms: Ten cents per ton when for home use, 50 cents per ton when for barter or sale, and in addition, 50 cents for office fees. No hay is to be cut before July 25th.

### The Nor-West Farmer.

The July 5th number of the Nor-West Farmer is a splendid number and reflects great credit on the publishers. It contains 96 pages full of information for farmers and ranchers. The number is profusely illustrated with pictures of men of note in agricultural societies, farm scenes and creameries. This magazine is now not only published semi-monthly but has been increased in size.

### Dominion Day.

July 1st passed off very quietly in town, the chief attraction being the Vernon picnic, which a large number of our citizens attended. They report a busy scene, though very little in the line of sports was provided. Some 200 sat down to supper and the sale of fancy work and flowers netted a respectable sum. Wheelmen were in evidence everywhere that a trail was fit to ride upon. The weather was all that could be desired, the only drawback being a few millions of mosquitoes wherever the inclination of the pleasure seeker led.

### Private Picnic.

A number of our young people went out to Mr. George Bailey's on July 1st and spent a most enjoyable time. Getting stuck in a mud hole was not down on the program but afforded diversion and a good appetite for the food. Bathing and diving from a rockier boat was an exhibition feature that brought forth roars of laughter, especially when the latter was unaccompanied. A sail on the same water was particularly pleasant to those who made no pretensions to an amphibious state. The happy crowd returned home about 8 p.m. and were loud in their praises of the hospitality shown by Mr. and Mrs. Bailey.

### Masonic Service.

Several members of the above order and others visited Indian Head on Sunday evening to attend service in the cathedral there. Rev. Mr. Dobie delivered an excellent sermon to the Masons, choosing as his text, Job I, 8, 9. He strongly urged the brethren to keep in mind their solemn obligations and endeavor to raise the moral standard not only of the brotherhood, but of humanity generally. The principle of Liberty, Fraternity, Equality applied to all and it was the privilege and duty of the brethren to uphold this principle. He severely scolded any member who might have joined the order from selfish motives of worldly gain and pointed out that they were not living up to their obligations if they merely attended lodge regularly. He then pointed out their highest duty and privilege as brethren in Christ, the great moral and religious example, according to whose teaching all were expected to gauge their lives.

### Now in Stock.

A large assortment of letter heads at this office. Call and inspect our stock and get prices. We guarantee to give satisfaction.

### Picnics.

Edgeley picnic will be held to-morrow (Friday) near the Edgeley schoolhouse and McLean picnic on July 19th.

### C. A. A. S. Prize List.

The Prize List of the exhibition to be held at Indian Head on Aug. 2nd and 3rd is to hand. The cover is printed in colors, the first page being adorned with an Indian head. The letter press is neat and attractive and does credit to the office of publication, "The Vidette." \$3,000 are offered in prizes and an excellent program of athletic sports, horse races, gymkhana races, bicycle races, jumping contests and a football tournament is provided for with liberal prizes.

### PERSONALS

Mrs. W. Wilson and son returned Monday from a visit to Regina.

Miss Brooks, of Indian Head, visited friends in town for a few days last week.

Mr. Moore, of Grenfell, spent Sunday in town visiting his brother J. H. Moore.

Among those who spent Dominion Day in town were J. Balfour Judson Booth, and Jim Wilson.

J. S. Macdonald, Superintendent of Government telegraphs, returned Wednesday morning from a twelve day trip to Wood Mountain.

Mr. E. E. Law leaves next week for Regina where he will be engaged for about ten days examining papers in connection with the Departmental exams.

A load of young men from Indian Head drove up to this town on Sunday evening and disturbed the quiet calm of the holy day by songs and general misbehavior. It is needless to say the people of Qu'Appelle do not approve of such actions.

Mr. Williams, teacher of Saltoun, paid us a visit on Monday. He was making the trip on his wheel from Saltoun to Regina where he intends remaining for several weeks, having been appointed sub-examiner in connection with the Territorial Departmental examination.

J. A. Mitchell, Esq., Indian Agent at Muskowpetung's Reserve, west of Ft. Qu'Appelle, was in town on Monday last. He reports a largely increased acreage of grain on the reserve this year and a marked interest in the work on the part of the Indians. Twenty payment will take place on July 12th.

### Vernon Views.

From our own correspondent.

The crops are looking better now but there is still room for improvement.

Mr. A. H. Miles, of Deep Lake, paid his parents a short visit last week.

Miss L. Langston was home for a few days holidays last week and returned to town on Saturday night, after the picnic.

### FOR SALE.

CHILD'S WAGGON nearly new.

Price .. .. \$1.50.

## ADVERTISERS !

### Printers' Ink says:

An ad. must look for the readers. Readers seldom look for an ad.

People remember your goods because you force them to. Stop forcing and they'll stop remembering.

A whole page ad. in two issues of a paper would be better than a half-page in four issues for impressing the people with the idea that something really is going to happen.

### The Progress says:

The business man cannot afford to remain silent or his rival gets the trade. Put in an ad. that catches the eye; change often, and mark results.
